1. Introduction

This proposal outlines the planning and development of a website for **Sweet Delights Bakery**, a fictional bakery business created for academic purposes. The website aims to provide customers with information about the bakery, showcase its products, promote custom cake services, and provide contact details for enquiries and orders.

The project will demonstrate the application of HTML, CSS, and JavaScript while following good web design principles, accessibility guidelines, and responsive design practices.

2. Organisation Overview

Business Name

Sweet Delights Bakery

Business Type

Local Bakery

Industry

Food and Beverage

Business Description

Sweet Delights Bakery specialises in producing freshly baked cakes, bread, cupcakes, cookies, muffins, and customised cakes for weddings, birthdays, anniversaries, graduations, and corporate events.

The bakery is committed to delivering high-quality products using fresh ingredients while providing excellent customer service.

3. Project Scope

The project includes the design and development of a responsive bakery website consisting of five main pages:

- Home
- About
- Products
- Gallery
- Contact

The website will provide business information, product descriptions, images, contact information, and a professional online presence.

4. Website Goals and Objectives

The primary goals of the website are to:

- Promote Sweet Delights Bakery online.
- Showcase bakery products and services.
- Increase customer awareness.
- Provide business contact information.
- Support enquiries for custom cake orders.
- Create a professional and user-friendly website.
- Demonstrate practical web development skills.

5. Proposed Website Features and Functionality

The website will include the following features:

- Responsive website design.
- Navigation menu on every page.
- Hero banner on the homepage.
- About Us section.
- Product catalogue.
- Product images.
- Gallery page.
- Contact page.
- Contact form.
- Business hours.
- Social media links.
- Footer with copyright information.
- Basic JavaScript interactions.
- Accessible HTML structure.
- Consistent layout and branding.

6. Target Audience

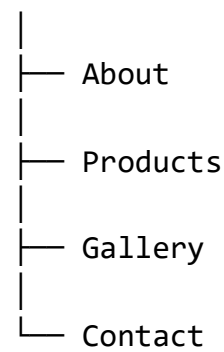

The website is intended for:

- Families.
- Individuals.
- Students.
- Office workers.
- Event organisers.
- Wedding planners.
- Schools.

- Businesses.
- Customers looking for custom cakes.
- Local community members.

7. Website Sitemap

Home

8. Technical Requirements

The website will be developed using:

- HTML5
- CSS3
- JavaScript

Development tools include:

- Visual Studio Code
- GitHub
- Google Chrome
- Microsoft Edge

The website will be tested on multiple browsers to ensure compatibility.

9. Timeline and Milestones

Week	Activity
Week 1	Research bakery information
Week 2	Project planning and sitemap
Week 3	Create HTML pages
Week 4	Apply CSS styling
Week 5	Add JavaScript functionality
Week 6	Testing and debugging
Week 7	Documentation and GitHub updates
Week 8	Final review and submission

10. Expected Outcomes

Upon completion, the website will:

- Present a professional bakery website.
- Display bakery products clearly.
- Provide customers with useful information.
- Demonstrate good HTML structure.
- Apply responsive design principles.
- Improve user experience.
- Meet the project requirements.

11. Conclusion

The Sweet Delights Bakery website project will provide a modern, attractive, and informative website that effectively promotes the bakery's products and services. The project demonstrates the practical application of web development principles while meeting academic requirements for planning, documentation, design, implementation, testing, and version control.
