Submit button

Successful submission
message

Pass

3. Responsive Testing

Device	Result
Desktop	Pass
Laptop	Pass
Tablet	Pass
Mobile	Pass

4. Browser Testing

Browser	Result
Google Chrome	Pass
Microsoft Edge	Pass
Mozilla Firefox	Pass

5. Performance Testing

- Website loads successfully.
- Images display correctly.
- Navigation is responsive.
- CSS animations function correctly.
- JavaScript features work as expected.

6. Accessibility Testing

- Keyboard navigation tested.
- Images include alternative text.
- Headings follow a logical structure.
- Colour contrast supports readability.

7. Issues Identified

No critical issues were identified during testing.

Minor improvements may include:

- Compressing images for faster loading.
- Adding more gallery content.
- Enhancing SEO metadata.

8. Conclusion

The website successfully meets the planned functional requirements. Navigation, responsiveness, layout, forms, and interactive features operate correctly, providing users with a professional browsing experience suitable for submission as part of the WEDE5020 Portfolio of Evidence.
